

Greek Orthodox Church of St. George

We are asking each family to look at their finances
& consider increasing their giving this year by
rounding up to the next percentage of your income.

For instance if you currently give:
0.7% of your income then consider giving 1%,
or if you give 0.3% please consider giving 0.5%.

Wherever you currently are, we are asking you to round up.

Keep in mind no trays will be passed this year, unless they are for a specific purpose.

This is our first step towards becoming a full stewardship parish,
not relying on festivals or trays at the end of church to pay our church's operating expenses.
